

Preparing for Scotia-Glenville's Future

VOTE December 16, 6 a.m. to 9 p.m., High School gym

The December 16 building renovation project would increase taxes by a maximum total of 1.9 percent. For a homeowner with a \$160,000 assessment, that is less than a \$60 per year or \$5 per month increase - before savings from the state's STAR school tax reduction program. The increase would be phased in over three years beginning in 2010.

The project includes:

- X Upgrades and expansions of the **Middle School and High School libraries*****
- X Renovated science labs and technology education and family and consumer science classrooms at the MS***
- X Technology education and art classroom improvements at the HS***
- X Solar energy panels at Sacandaga Elementary to cut electricity costs***
- X Multi-sport artificial turf field for use by physical education classes, after-school sports and community sports***
- X Roofing and maintenance upgrades at school buildings***

Check out the school district's web site, ScotiaGlenvilleSchools.org, for more information.
